MESSAGE

The table of days remaining in the year in this program needs to be changed as follows:

line 270 & 260 are correct as is line 370

change to read line 280 K = 306 - D; Return 320 K = 184 - D; Return
290 K = 275 - D; —"— 330 K = 153 - D; —"—
(changed from original) 300 K = 245 - D; —"— 340 K = 122 - D; —"—
310 K = 214 - D; —"— 350 K = 92 - D; —"—
360 K = 61 - D; —"—

SIGNED:

To check the need for this correction set-up condition to read from one year to the next on identical dates (birthday save as birthday when 1 year old) - for any month past Feb. (Except December) you'll find you are only 363 (instead of 365) days old. when line 990 prints A+U. - Also - all calculated factors are off by two days.
